

# Need a layout?

## Please complete this form & we can help!

Let us help you create a lighting layout using our C-FL-A-SPRT Series LED Sports Light. Complete the questions below and send fully completed forms to us via email.

1. Type of field/court? (Basketball, baseball, tennis, football, etc.)
2. Dimensions/size of the field/court?
3. Please provide details on positional dimensions and qty. of existing light poles. Also provide offset distance.  
\*For rectangular fields/courts, positional dimensions should be in reference to an end line (short side) of the field/court. For baseball fields positional dimensions should be in reference to home plate, foul lines, and fence. If offsets are not the same for all boundaries, specify the offset for each boundary.
4. Offset distance of light poles from field/court boundaries? If offsets are not the same for all boundaries, specify the offset for each boundary.
5. What level of competition is the field/court used for? (Recreational, amateur, professional, other)
6. Quantity of fixtures per pole? Horizontal spacing between fixtures on a single crossbar?
7. Multiple crossbars per pole? If so, what is the vertical spacing?
8. If multiple crossbars, what is the height of the lowest crossbar?
9. Fixture mounting height? (10-15 feet, 15-25 feet, >25 feet)
10. Address of the jobsite (if available)?

**Please include as much detailed information as possible for your layout request. Please email fully completed document to: [sales@e-conolight.com](mailto:sales@e-conolight.com) and feel free to include project plan documents as needed. Please allow 24 business hours for a response.**
